Easy to wear, hard to wear out.

- Thicker glove for protection
- Smooth finish for tactile sensitivity
- Water-based hydrogel coating for easy donnability
- Interlocking, beaded cuff design helps to prevent roll-down
- Proprietary hand mold with an independent thumb design allows for an anatomical fit and natural movement

Cardinal Health™ Protexis® Latex Ortho Surgical Gloves are a powder-free latex solution designed to help the user feel secure in orthopedic procedures or other procedures where a thicker barrier may be desired, such as trauma and reconstructive surgery.

The gloves feature a distinctive hydrogel coating for easy donning, while enhancing the second-skin comfort of latex. These gloves can be worn alone when a single layer of protection is preferred, or as a top or bottom glove when double-gloving.
Rich, brown color helps reduce glare from surgical lighting

THE CARDINAL HEALTH™ PROTEXIS® SURGICAL GLOVES PROMISE:
We protect so you can perform.
As a leader in the industry with more than 50 years of surgical gloves experience, Cardinal Health is dedicated to providing protection, performance and expertise so wearers can perform confidently and focus on their patients.

Help maximize storage space: Half-fold packaging design reduces packaging material\(^a\)

Storage recommendations: It is recommended that gloves are properly stored away from light and extreme temperatures. Gloves should also be protected from direct exposure to ozone-generated devices such as fluorescent lights, electrical motors and x-ray devices.

Expiration: 35 months from date of manufacture. Expiration date is printed on packaging.

\(^1\) Tested in accordance with ASTM D 6124
\(^2\) Tested in accordance with ASTM D 5712
\(^3\) Caution: This product contains natural rubber latex which may cause allergic reactions.
\(^4\) Caution: Safe use of these gloves by or on latex-sensitized individuals has not been established
