Sturdy, dependable, lab-grade

Outfit your lab with equipment that will last. Cardinal Health™ Blood Drawing Chairs are designed for long life – and for the rugged day-to-day of the lab.
Blood drawing chairs

1. Elevated seat
to help reduce back strain for the technician.

2. Gas-assist arm lift mechanism
aids the padded arm to the upright-vertical position and holds it stationary. It also helps to safely and gently lower the padded arm.

3. Ergonomically designed padded arm
is contoured and angled at 10° to support the patient’s arm in a fully extended position for easier venipuncture. The padded arm is molded urethane foam with an integral coating that cleans easily and withstands disinfection with alcohol or bleach.

4. Durable chair is constructed for long life
Chair seat is made of strong, scratch resistant, molded nylon-filled polyester. The welded frame of one-inch square steel tubing and formed supporting channels are coated with chemical-resistant powder epoxy.

5. Optional storage cabinet
has a slide-out tray with inside dimensions of 14”w x 20.25”d. The tray is removable for cleaning. The padded urethane cabinet top has a dished compartment for safe placement of test tubes and other blood drawing supplies. On model L5165-2B Blood drawing chair with cabinet, the cabinet placement is interchangeable from the left side to the right side of chair.

LS165-1B blood drawing chair
26.5”w x 27.5”d x 37”h
Includes compression-molded, nylon-filled polyester chair, dry powder glacier white epoxy-coated one-inch square tubular steel frame, type 304 stainless steel foot rest, and molded urethane padded arm with integral coating and gas-assist arm lift mechanism. 10 year limited warranty on materials and workmanship.* Weight capacity is 450 lbs. (204 kg). Shipping weight 58 lbs. (26 kg). Some assembly required.

LS165-2B blood drawing chair with storage cabinet
46”w x 27.5”d x 37”h
Includes compression-molded, nylon-filled polyester chair, dry powder glacier white epoxy-coated one-inch square tubular steel frame, type 304 stainless steel foot rest, and molded urethane padded arm with integral coating and gas-assist arm lift mechanism. Weight capacity of chair is 450 lbs. (204 kg). Epoxy-coated storage cabinet includes one slide-out tray of high impact ABS plastic with dish dimensions of 14”w x 20.25”d. Overall inside cabinet dimensions: 16.3”w x 22”d x 9”h. Padded urethane storage cabinet top includes a dished compartment. Bracket and hardware are provided to mount the interchangeable cabinet on right or left side of chair. 10 year limited warranty on materials and workmanship.* Shipping weight 111 lbs. (50 kg). Some assembly required.

LS165-3B double blood drawing chair with center storage cabinet
74.5”w x 27.5”d x 37”h
Includes two compression-molded, nylon-filled polyester chairs with dry powder glacier white epoxy-coated one-inch square tubular steel frames, type 304 stainless steel foot rests, and molded urethane padded arms with integral coating and gas-assist arm lift mechanism. Weight capacity of each chair is 450 lbs. (204 kg). Epoxy-coated storage cabinet includes one slide-out tray of high impact ABS plastic with dish dimensions of 14”w x 20.25”d. Overall inside cabinet dimensions: 16.3”w x 22”d x 9”h. Padded urethane storage cabinet top includes a dished compartment. Bracket and hardware are provided to mount the cabinet between the two chairs. Some assembly is required. 10 year limited warranty on materials and workmanship.* Shipping weight 169 lbs. (77 kg). Some assembly required.

*See product packaging and inserts for limited warranty terms.
Bariatric blood drawing chairs
