

The most comfortable surgical gown in the industry.

RoyalSilk™ Surgical Gowns

Inspired by the same comfort you provide your patients.

CardinalHealth

Essential to care™

The most comfortable surgical gown in the industry.¹

Protection, recognition and breathability have made our gowns among the most widely used in the OR. We're proud to add softness and comfort to that list so you can focus on the procedure, not the gown.

RoyalSilk™ Surgical Gowns

- **Comfort**

RoyalSilk™ surgical gowns are made from a unique fabric, making them softer to the skin than traditional surgical gowns. They're so soft in fact, that based on actual user trials of 900 healthcare workers, 9 out of 10 prefer RoyalSilk™ over their current gown.

- **Protection**

No need to sacrifice protection for comfort. RoyalSilk™ surgical gowns are ideal for minimal-to-moderate fluid exposure, offering AAMI Level 3 protection from blood, liquids and other potentially infectious material.¹

- **Value**

The comfort even extends to your budget. RoyalSilk™ surgical gowns are an incredible value for the price.
