The information contained in this guide is for educational purposes only and is not intended to serve as reimbursement advice. The information herein is taken from the materials published by the Centers for Medicare and Medicaid Services and the American Medical Association and may be helpful to providers in staying up to date on coding and billing of services. This information is subject to change, and cannot guarantee coverage or reimbursement. Medtronic makes no other representations as to selecting codes for procedures or compliance with any other billing protocols or prerequisites. As with all claims, providers are responsible for exercising their independent clinical judgment in selecting the codes that most accurately reflect the patient's condition and procedures performed for a patient and to consult with each patient's health plan for appropriate reporting of each procedure. Providers should refer to current, complete, and authoritative publications such as AMA HCPCS Level II Code publication or insurer policies for selecting codes based on the care rendered to an individual patient, and may wish to contact individual carriers, fiscal intermediaries, or other third-party payers as needed.
