

Vendor Code of Conduct

(Global)

Cardinal Health is committed to the highest standard of business ethics and integrity around the world and our continued success depends on our employees, vendors and business partners acting with honesty and integrity while conducting business with or on behalf of Cardinal Health.

This Code of Conduct sets forth the basic requirements that all vendors, distributors, agents, suppliers, representatives, and other business partners and their employees, directors, officers, agents, representatives, and subcontractors (collectively referred to as “Vendors”) must comply with to do business with Cardinal Health and its (direct or indirect) subsidiaries and affiliates (collectively referred to as “Cardinal Health”).

They also prohibit submitting or causing to be submitted any fraudulent claim for payment by the federal government.
- **Anti-Corruption.** Vendors must comply with the anti-corruption laws of the countries in which they do business and with the United States Foreign Corrupt Practices Act (“FCPA”).
