Cardinal Health™ Integrated Wall Systems by Welch Allyn

Integrated wall systems
The Cardinal Health™ Integrated Wall System puts essential diagnostic tools more easily within reach. For one exam room or for an entire facility, the Cardinal Health™ Integrated Wall System is configurable to include your choice of ophthalmoscopes, otoscopes, thermometry and blood pressure devices. Help ensure your facility receives reliable diagnostic patient data in a consistent and energy-efficient manner to help improve workflows and your bottom line.

Features
- Automatic on/off switch can help to reduce costs
- Elimination of physical on/off switch can help to reduce contact and risk of cross-contamination
- Configurable to include ophthalmoscopes, otoscopes, thermometers, blood pressure devices
- Increase productivity by having instruments/cuffs in one central location
- Easy to install
