

Plastic connectors

Medi-Vac® Products

Medi-Vac® plastic connectors are durable, shatter-resistant and can help reduce the expensive replacement cost associated with breakage. They're light in weight and sufficiently transparent to allow easy observation of flow.

The connectors are for single use to save you valuable reprocessing time.

Both the sterile and non-sterile connectors are supplied in convenient dispenser cartons. Each box is clearly labeled by type and catalog number for ease in identification and reordering.

For more information, or to place an order, please contact your Cardinal Health sales representative or call customer service at 800.964.5227.

Ordering information

Description	NON-STERILE		STERILE	
	Cat. No.	Qty. Bx/Cs	Cat. No.	Qty. Bx/Cs
