

Drug Transaction Data Access for Kinray and Cardinal Health Puerto Rico Customers

Kinray and Cardinal Health Puerto Rico customers may access **transaction data** for eligible pharmaceutical products as required under the Drug Supply Chain Security Act (DSCSA).

The data is available online, at no cost, so customers may access it quickly to support investigations or recalls.

Kinray Customers

If you are enrolled in Reimbursement Consulting Services or in LeaderNET, please use your RCS portal login or your Reimbursement Assistance page login to access your Drug Tracing data.

If you cannot remember your username or do not have one, please contact Kinray customer service at 347.438.2700.

Cardinal Health Puerto Rico Customers

The “Track and Trace” data report will be accessible to Cardinal Health customers who log in to the Cardinal Health Puerto Rico web portal (cardinalhealth.pr). These customers will click on the “Reports” tab and select “Track and Trace Report” or “DSCSA Transaction Data” from the next screen. Customers can also access the reports through Cardinal Health’s online ordering system – Order Express.

If you do not have access to the above online portals, please contact our Technical Service Center 787.625.4440 to request access.

Puerto Rico customers may send questions to: G-PR005-DrugTracing@cardinalhealth.com

Get more information the DSCSA and your obligation under the law

Visit cardinalhealth.com/trace and view the [video](#) on the “Customers” page of the site. Another video and user guide explain how to read your transaction data report. A more detailed [video for manufacturers](#) may also help you understand other aspects of the DSCSA.
