

Boost patient safety and the efficiency of your GI suite

with endoscopy kits from Cardinal Health

The use of endoscopy kits offers significant opportunities to help reduce the risk of patient infections and increase staff safety and efficiency in the gastrointestinal (GI) suite. Cardinal Health offers both standard and custom endoscopy procedure kits.*

Reduce time and expense of ordering, stocking and picking items for your GI procedures and reduce waste with Cardinal Health endoscopy kits, including:

Multi-Purpose Scope Transport Bag

with drawstring ties to safely transport endoscopes for reprocessing

- Fluid resistant material
- Padding absorbs and protects
- Helps prevent contamination during transport
- Dual purpose biohazard/used equipment tag to keep GI personnel informed and safe
- Utilized as back procedural tray cover

ScopeValet™ ECO-Bedside Cleaning Kit

designed for convenient, bedside use to remove contaminants from the outside sheath of scopes and internal channels

- Wide-mouth tray design and securely fitting lid to prevent spillage of enzymatic solution during preparation
- Biodegradable**, plant-based, light weight container
- Contoured sponge conveniently prefilled with enzymatic detergent to remove soils from insertion tube of scope

Double-Ended Cleaning Brush

to safely clean inside channel of endoscopes

- Double-end pull through design, ensuring maximum channel cleaning coverage
- Unique, rounded tip helps to prevent damage to the inside channels of scopes
- Premium catheter stiffness provides smooth scope passage
