

Understand pharmacy performance with EQuIPP™

Cardinal Health has partnered with Pharmacy Quality Solutions (PQS) to give pharmacies access to the EQuIPP™ dashboard—an unbiased, benchmarking performance tool that provides insight into a pharmacy and the measures that matter to them.

Performance matters.

The shift in the healthcare landscape has left many wondering what they can do to stay above the curve. Pharmacy Benefits Managers (PBMs) and Medicare Part D plans already see your pharmacy's performance, why shouldn't you? EQuIPP™ provides the information you need through performance data and benchmarks to see how your pharmacy stacks up to the CMS Star Ratings pharmacy quality measures.

Performance pays

EQuIPP is being used to drive the analytics behind all CVS Health Pay for Performance programs among other health plan opportunities. Through this user-friendly dashboard, you can track your pay for performance progress. This will allow you to maximize your earning potential for these performance based bonus dollars.

Benefits:

- **Timely performance data** at your fingertips
- An environment that enables your pharmacy to be connected to **performance based incentive opportunities**
- **Easily identify key opportunities** for improvement
- **Address medication-specific adherence** and gaps in care with available assistance tools

Six measures of health plan quality

Pharmacy measures	Weighted score
Percentage of patients on diabetes plus hypertension medications (retired in 2015)	3
Percentage of elderly patients on high-risk medications	3
Percentage of patients found to have high adherence to statins	3
Percentage of patients found to have high adherence to antihypertensive medications	3
Percentage of patients found to have high adherence to oral diabetes medications	3
Current display measures (New Star Ratings measure in 2016)	
Percentage of Comprehensive Medication Reviews completed	1

Take control of your performance today by signing on to the EQuIPP™ dashboard. Contact your Cardinal Health sales representative to learn more about EQuIPP™ and how to access your personal dashboard today.
