

SMART COMPRESSION™ SUSTAINS

Kendall SCD™ 700 SMART COMPRESSION™

It's compression that protects the environment.¹ That helps minimize waste. That saves hospitals money along the way. Bettering our patients and bettering our world. That's smart sustainability, and it's available in the Kendall SCD™ 700 Compression System.

**PRACTICES ZERO
LANDFILL WASTE**

PROVIDES VALUE

**DRIVES EFFICIENT
SUPPLY CHAIN**

THE PROBLEM WITH MOST REPROCESSORS

Duplication of SKUs required

The additional time spent managing multiple vendors and SKUs over multiple product lines can cost time and money.

They are not the OEM and do not have access to manufactured product to support blended case models

Accounts are only capable of purchasing back a percentage of collected product. On average 60% of the total value of reprocessing is not realized due to limited collections.¹

Inability to fulfill capital contract requirements

These can result in a \$250 service fee for pump repairs and up to \$2000 for every new pump.

THE SMART COMPRESSION™ DIFFERENCE

REPROCESSING WITH CARDINAL HEALTH

- Eliminates managing multiple vendors and SKUs
- Can help meet supply for 100% of your volume requirements and support capital compliance commitments
- Means we fill up your order with our OEM product if there's ever a shortfall in product collected from you at no additional cost
- Means your inventory doesn't depend on staff compliance to collections — we partner with you to educate staff on proper collection procedures

PERKS OF WORKING WITH AN OEM WHO'S ALSO A DISTRIBUTOR

- Predictable cost savings
- A more stable, more efficient product supply
- Less worry about staff compliance or devices failing to survive reprocessing

GO GREEN

In 2017, we diverted 602,000 pounds of medical waste from landfills by reprocessing and recycling our sleeves.¹ That's doing right by you and the world you live in.

**Committed
inventory**

**602K
pounds of medical
waste diverted
annually¹**
