

Cardinal Health

Specialty Pharmaceutical Distribution

Product portfolio: January 2021

Access a broad portfolio of specialty drugs

Delivering outstanding patient care starts with having the right products and services when you need them most. Cardinal Health Specialty Pharmaceutical Distribution offers an extensive portfolio of limited distribution drugs (LDDs), plasma derivatives and other specialty pharmaceuticals for hospitals, specialty physician practices, specialty pharmacies and alternate sites of care.

We simplify the delivery of specialty products by leveraging our scale as one of the largest specialty healthcare supply chains in the U.S., our long-standing relationships with leading group purchasing organizations and decades of experience delivering specialty drugs. Our knowledgeable and experienced Sourcing team works closely with leading biopharma manufacturers on your behalf to gain visibility into the specialty drug product pipeline.

We understand your patients depend on these therapies, and we are committed to helping you provide high-quality patient care.

Plasma products

Cardinal Health Specialty Pharmaceutical Distribution is proud to offer a range of plasma products including albumin, coagulation factors, hyperimmunes, immune globulin and other plasma derivatives.
