An industry leader in fluid management products

Medi-Vac® Suction and Fluid Collection Products offer a comprehensive line of sterile suction tubing and handles to meet your needs. Our wide variety of sizes and features offer cost-effective fluid management choices to help balance all of your priorities — from safety to cost and quality.

To order, please contact your Cardinal Health sales representative or call customer service at 800.964.5227.
Medi-Vac® Suction Tubing

Medi-Vac® Sterile Suction Tubing is a cost-effective solution with the quality and reliability you need to remove fluids from the surgical field.

- Special formulation
- Prevents easy handling and disposability with low coagulation resistance
- Thick tubing walls
- Opaque safety and collapse resistance at high vacuum pressures

Medi-Vac® Sterile Suction Tubing is a rigid male connector for coupling additional tubes. In addition to the Maxi-Grip™ Connector, every sterile tube includes the Male connector.

- Thick tubing walls
- Tubing is provided for easy transport and use.

Medi-Vac® Suction Tubing is available in 100 ft. rolls with Maxi-Grip™ Connectors at 6 ft. Each roll includes a female Maxi-Grip™ Connector to accommodate a wide range of surgical instruments and equipment.

- Tubing is equipped with female Maxi-Grip™ Connectors to accommodate a wide range of surgical instruments and equipment with a secure fit.

Tubing is available in a variety of formats:
- Conventional sterile and non-sterile 100 ft. rolls
- Thick tubing walls
- Special formulation

Patented connectors provide a secure fit on a wide range of surgical instruments and equipment. Offer safety and collapse-resistance at high vacuum pressures. Provides easy handling and drapability with low coil memory.
