Confidence comes with clear sound quality
Quality meets value.
Cardinal Health™ Stethoscopes have high acoustic quality, are available in a variety of sizes to meet your needs (infant to adult) and are cost-effective. All stethoscopes come pre-assembled. Our portfolio is defined by three categories:

• **Basic**
  Standard profile stethoscopes:
  - Single-head
  - Dual-head
  - Bowles
  - Sprague Rappaport

• **Premium**
  Additional options for clinician preference:
  - Light weight
  - Stainless steel
  - Cardiology
  - Fetal
  - Teaching

• **Single-patient use**
  Helping to prevent cross-contamination, with single-patient use options available in:
  - All plastic
  - Chrome plated brass binalural
  - Aluminum chest piece and binaural

Single-head stethoscopes feature a chrome-plated brass binaural, a lightweight anodized aluminum chest piece and 22 in. vinyl Y tubing. Choose from a variety of colors for departmental coding or individual preference.

All listed stethoscopes are not made with natural rubber latex.
**Dual-head stethoscopes**

Dual-head stethoscopes feature a lightweight, anodized aluminum chest piece, a chrome-plated brass binaural and 22 in. vinyl Y-tubing. The dual-head chest piece features a bell that fits into small areas and detects faint, low-frequency sounds and a diaphragm which transmits higher frequency heart and lung sounds.

**Sprague Rappaport stethoscope**

The Sprague Rappaport stethoscope includes five interchangeable, chest piece fittings to provide versatility for use on infants, children and adults. There are three bell sizes (adult, medium, and infant) and two diaphragm sizes (small and large). They feature chrome-plated binaural and 22 in. twin tubing, which provides separate sound pathways for outstanding acoustical clarity. Three different sized ear tips are provided for comfort.

Plastic

Plastic single-patient use stethoscopes are disposable to help prevent cross-contamination. They feature an ultra-sensitive plastic chest piece for remarkable acoustic performance. Plastic single patient use stethoscopes include a plastic binaural designed to provide excellent sound transmission to both ears and a comfortable fit for all users. Available individually wrapped and fully assembled.
