

Financial health for your pharmacy

Evolve your business to maximize financial health

A significant piece of your pharmacy's financial health includes understanding your community's needs and evolving to meet them. Adding new offerings differentiates your pharmacy from competitors, brings more patients into your pharmacy and increases revenue potential.

Learn more about the services Cardinal Health offers that enable you to evolve your business — and why it matters.

Dispill® multi-dose packaging

3.6 average increase in scripts filled with patients on Dispill®

\$21,960 average increase in annual revenue per 100 patients using Dispill®

Offer your patients a convenient and easy-to-use compliance packaging solution to help them adhere to their medication regimen.

Cardinal Health Medical Benefit Billing

10,000 Americans are aging into Medicare every day

Streamlined dashboard to reconcile medical and pharmacy claims in one place

Did you know? Pharmacies can bill Medicare Part B without being accredited for immunizations (flu and pneumococcal), nebulizer solutions or oral cancer drugs. We can guide you through the process to begin billing without accreditation.

Patient care solutions

\$23 average gross profit per vaccine, amplifying your pharmacy's revenue

20% immunization rate can lead to **6%** increase in front-end sales

Drive traffic into your pharmacy with cholesterol, blood glucose, influenza and strep testing.
